MONEY MARKET.

Sunday, Oct. 6-6 P. M.

The stock market closed yesterday with considerable speculative feeling. Quotations advanced very much at both Boards, and in the street after the Boards adjourned. There appears to be a disposition among operators to get up a sper ulation in several fancies. The advance during the past week has been in Canton, Stonington, Farmers' Loan at Morwichland Worcester. We should not be surprised to see a very rapid improvement in these stocks for a week or two to come. The advance within the past few days has been sufficient to get up quite an exciting another than the second of the seco quotations for the past week will show the advance :-

rate the advance has fonc on for the past few days in two or three stocks, can sot be maintained. The recent report of the Stonington Kailroad Company has no doubt had a of the Stonington 'Anilroad Company has no doubt had a very favorable ir fluence on the price of the stock in this market, as the 'mprovenent has been realized since that made its apper rance. The advance in Norwich and Worcester has po rtly been produced by the improved condition of the 'Anaucial affairs of the company and partly by the opera dons in Wall street. The abundance of money affoath' as also a portion of influence on stocks generally. Operations in Ohio 6's have lately been very how and the stock of Thursday resolved to a see a second of the stock of Thursday resolved. hear y, and the stock on Thursday reached at par, a p' .ice that has not been realized for several months past. Ace that has not been realized for several months pact. Kentucky 6's have slightly improved. The present movements in the stock market are very limited to what they will probably be after the existing excitement hrs subsided and the Presidential contest is settled. We never knew the political fever rage so extensively, and the subject absorbs the attention of those engaged in every department of business.

The Marine Bank of Baltimore has declared a semi-annual dividend of three per cent.

The exports from the port of New York for September, will compare very favorably with previous months this year, and the aggregate exports up to Oct. 1st this year, will compare very favorably with the exports up to the same date last year. In many of the leading staples, the export is larger lin 1844 so far than in 1843; for instance such articles as beef, corn, cotton, flour, lard, lumber, wheat, naval stores, pork, &c., have been shipped more exten sively this year than last. The increase in value is not so great as the increase in quantity; prices have in many instances found a more reduced level, and the producers of our principal staples have not realized so fair a remu-neration for their produce as in previous years. We have not the presumption to attribute this state of things te any ticular policy of the government, but must at-ute it principally to the increased supply; to the surplus over and above the demand for consumption; and to the absence of all speculative demand for either domestic or foreign markets. The movements of the crops now coming forward are likely to end in the same result. The supply of cotton, tobacco, wheat, wool, &c., will ithout doubt, greatly exceed the demand, and prices ust become still further reduced. There is no remedy that is out of the question. Producers in this country are increasing with greater rapidity than the consumers, and so long as that continues, so long will prices of agri cultural products command but very reduced prices. The foreign demand for our breadstuffs has nearly reached its maximum, and the attention of the people of this country must be turned to other employments besides agriculture. Our extent of soil dissipates all dangers from unfavorable harvests. If a crop is destroyed in one insured in the most unfortunate season. We annex a table showing the exports from this port from Jan. 1 to Oct. 1, 1843 and 1844. EXPORTS FROM THE PORT OF NEW YORK

The dividends declared by the Atlantic Bank, the Colum bian, Eagle, Granite, Hamilton, Massachusetts, New En-gland, North, State, Trades, and Washington Banks are grand, North, State, Trades, and Washi-gton Banks are larger for the six months ending October than for the six months ending April. The average semi-annual per cent dividend on the banking capital of Boston for the last eighteen months has been about 24 per cent,or only 5} per cent per annum. The last statement of the movements of the Bonks of Boston reported the loans and discounts to be \$25.293,667. Specie \$6.623,627. Circulation \$4.116,636. Deposits \$7,737.911. The total banking capital of Massachusetts in 1943, was \$31.099,500, more than half of which was invested in the Boston Banks. of which was invested in the Boston Banks. Of 103 Banks in the State, 24 are in Boston. We annex a comparative statement showing the operations of the city and

The capitalists of Boston are more partial to investment in railroads, insurance companies, &c., than in banks --The merchants of that section are not compelled to depend The merchants of that section are not compelled to depend upon bank favors, for means to carry on their business. Commercial men at the east generally do business on their own capitals, and restrict their operations to the limits of their is dividual resources. These causes, with the reduced legal rate of interest below that of this State, prevents the banks from declaring dividends equal to many other investments. A very large amount of Boston capital is employed in banking in this city, and is deposited in the hands of private bankers to loan on stock and other securities. rities.

SEVENTEENTH GREAT ANNUAL FAIR

AMERICAN INSTITUTE,

OPEN to the public at NIBLO'S, This Day, at 12 o'clock—
Articles for Exhibition will continue to be received. Their
number and variety on closing, on Saturday evening, were
several thousand over any former Fair. The Managers can, therefore with confidence invite the public to the best display of our
country's improvement in art and industry, this city has ever
afforded. As usual a day or two will elapse before the arrangements will be complete. An interesting address may be expected
from Lieut. Gov. Bradish, this evening at 7½ o'clock, in the
great saloon—Splendid Fireworks by Mr. Edge, will follow.

MR. EDITOR—GOOD LIVING:—"that's the idea"—who is not fond of good living? Every man, woman and child, in christendom are on the look out for it; but the trouble with most of us is to know where to find it. On my way up town a few days ago, I noticed a new Dining Saloon had just been opened at No. 52, Chatham street; I thought the old adage, "a new broom sweeps clean," might be practised there, so I dropped in, and to my surprise, found it was established by Mr. E. G. Ferris, who has been for manyyears favorably known at the FultonMarket Dining Saloon. Well, thinks I to myself, here is the "old broom," which was always kept new, for Ferris always observed the greatest cleanliness in every department of his establishment. So I sat down and called for Rosat Beef, and it was roast beef! juicy, rare and teader—cooked just right. I then called for Rosat Duck, which was tender as a spring chicken, and fine flavor—and topped off with Flum Fudding, i settled my bill, which was only twenty-five cents, well satisfied with the fare and reasonable charge, and "cleaned the coop" with a determination to call again. I advise every one that regards his stomach to call at Ferris, No. 52 Chatham street, and partake of his sumptuous fare, as I have done.

EXTRACT OF CUBEBS, COPAIVA AND SARSAPARILLA.

THIS is one of the most speedy and effectual remedies for the cure of Gounorrhosa that has ever been introduced. It is pleasant to the palate and grateful, to the atomach, and is easily taken, being in the usual form of extracts. In it are concentrated all the medicinal properties of such remedies as are found most speedily efficacious in curing glests, seminal weakness, whites, and all discharges of the urinary passage. It is wholly a vegetable compound, and acts like a charm in producing an immediate operation upon the part affected. Full directions accompany the medicine, which may be had at No. 2 Ann street—Price 31.

IMPORTANT MEDICAL NOTICE.

DOCTOR EVANS, No. 288 Pearl street, near Beekman street, New York, has been more thun forty years in the successful practice of physic and surgery, particularly in curing (perfectly) those desperate cases of africtures, expert an the throat, &c., caused by mal-practice. This city is inundated with all kinds of nostrum venders to make money, no matter how; they are all great physicians, if you believe their long putfing advertisements, and forged certificates—without regular diplomas. It is of the greatest importance for the unfortunate to choose an experienced physician. Dr. E. is the oldest and most experienced in this city; his practice great, his success astomshing, even after they have been expelled; the Hospitals as incurable. His offices are well arranged for privacy. Call at 288 Pearl street, and be convinced. His charges are most reasonable and all cases are goaranteed.

WHO DISCOVERED IT!

DR. A. C. CASTLE, Anno Domin 1828, first introduced to
the notice of the public the mode of inserting Artificial
Teeth on the principle of adhesion by atmospheric pressure.—
In 1835, '40, other dentists make the laughable claim of this methed as their discovery. As well might they claim his imintable Paste for filling hollow, tender teeth, which is put into the
tooth in a soft state, and in a few seconds becomes as hard and
in all respects as good as the original sound tooth. The first
families in the United States use and recommend it. The most
distinguished physicians, made cognizant of its harmless combinations from their own practical experience, recommend it,
thas received the highest commendation from the Tress.

GREAT SOUTHERN RAIL ROAD ROUTE

THE following tribute from the Rev. T. Clarke, of New
Orleans to the accommodation afforded by the North Caroolina, South Carolina, Georgia and Montgomery Rail Road
Route to New Orleans, we republish with pleasure:
"Having recently returned from a visit to my friends at the
North, and this being the period at which those of our citizens
who have had occasion to go to the North, during the summer,
are making arrangements to return, permit me, through the medium of your columns, to recommend to them to make their
journey here by the Great Southern Route, as being much peferable to any other route, both in point of ease, comfort, asfety,
and the excellence of the arrangements to secure speed in traveling and certainty in arviving at the times engaged.

"I have personally travelled on this route as times, and gen
confidently speak of its great merits and superiority over the
other routes, and each succeeding year find more of our fellow
citizens who travel by it in preference to the others; and I feel
confident that those who make trial of it will thank me for
having brought it to their notice. Were I to enumerate all its
alivantages, I should occupy more of your valuable space than
i am willing to do, and will, therefore, merely say that the arrangements are excellent, and that part of the route which is
traversed by stages, is over one of the best roads at this season in
the States, the stages are commodious, the horses of the best
description, and the drivers uniformly courteous and gentlemanly.

the States, the stages are commodious, the horses of the best description, and the drivers uniformly courteous and gentlemanity.

"The following is a statement of the different places and periods of starting on the route. Leaving Baltimore in the fine Bay boats, at 4 o' lock in the afternoon, meat morning take the rail road at Wilmington, N. C., where you will arrive at 12 M, and take the boat to Charleston, arriving at 3-A. M. Thence by a rail road at 9.A. M., to Augusta, 5a., and by the Georgia rail road to Social Circle, whence you proceed by the rail road stage line to Montgomery, Ala., from whence you take the stage at 11 P. M., to Mobile, arriving there in thirty-six hours, and then proceed here by our splendid Bay boats, which stand in need of no recommendation from me.

"With the hope that this communication may be of use to my fellow citizens, I remain,
Messectfully, T. CLARKE.

"New Orleans, Splender 16, 1841."

The agent, Mr. Chorkey W. DENT, may be found at the Franklin House, in this city, to extend to passengers any in formation in relation to this very superior route to New Orleans.
